

IPCP Pro 350

IP LINK PRO CONTROL PROCESSOR

- ▶ Supports TouchLink® Pro touchpanels
- ▶ Supports secure industry standard communications protocols
- ▶ Supports LinkLicense™
- ▶ Two bidirectional RS-232 ports with software handshaking
- ▶ One bidirectional RS-232/RS-422/RS-485 serial port with hardware and software handshaking
- ▶ Two IR/Serial ports for one-way control of external devices
- ▶ Four relays for controlling room functions
- ▶ Ethernet monitoring and control
- ▶ Integrated 3 port network switch
- ▶ Supports 10/100/1000 Base-T
- ▶ Supports Ethernet-controllable devices

The Extron IPCP Pro 350 is a versatile, high-performance control processor designed for centralized AV control in mid-sized applications. It is engineered to be faster and more secure in almost every way. It features advanced security standards and Gigabit Ethernet, which ensures compatibility with multiple TouchLink Pro touchpanels using today's network infrastructure. The IPCP Pro 350 is an ideal choice for controlling multiple devices and signal types within an AV system.
